business better, but certainly prohibition has not made it worse.  
Now, how about the increase in population? Five years ago Lake City had a population of 4,073. Today she has 6,509, a gain of 2426; Live Oak five years ago had a population of 1669; to-day she has over 5,000, an increase of over 3,000.  
Gainesville five years ago had a population of 4,633; to-day she has 5,500. Ocala five years ago had a population of 3380. I have not seen the census report for Ocala but I asked the census enumerator, R. W. Ervin, just after he had taken three wards and would it run to 5,000, and he said it would not go over 4,500, if that.  
Tallahassee has not been dry but a little over a half a year. She has made about the same growth as Ocala. I do not know whether you call increasing in population prosperity or not, but these increases certainly show that prohibition has not hurt the towns.  
Some one who signs his himself "An Old Timer," whom I suppose is the same as "Apex" and the other nom de plumes, refers us to Vermont, Maine and Kansas. Prohibition in these states has proven most successful. The "wets" tell us it is a failure and the "drys" tell us it is a success, but the people in these states laugh at our ignorance and say that we who have experienced it are satisfied and are keeping it.  
The "wets" say that Vermont, after a long time, went back to a licensed state, but they don't tell us that after one year's trial under license and local option it went back almost to a prohibition state, and to-day 65 out of 75 municipalities have prohibition and all the counties except three.  
W. D. CARN.

To the Dry Voters of the County.  
We wish to call your attention to the fact that it is very important that you go to the polls and cast your vote for a dry county. Clay county went wet by only three votes. Four more votes for the drys would have changed the result. We expect Dunnellon to go a large majority wet, and the other precincts must overcome the Dunnellon majority. Your vote is important and is needed. Remember the election November 28th.  
W. D. CARN,  
Chairman Prohibition Club.  
L. W. MOORE,  
Secretary Prohibition Club.

## WET AND DRY COUNTIES.

To the Editor Ocala Banner.  
I wish to give a few more facts in reply to some of the late wet pieces in the Ocala papers. In your issue of November 18th you say that Tallahassee, Live Oak, Lake City and Gainesville are no more prosperous than Ocala.  
It is not the claim of prohibition speakers that carrying the town dry will boom it financially, but it is our claim that it will not hurt it in any way and we point to these places and show you that they are more prosperous than when they were wet, simply to prove that they have not been killed by prohibition. As another proof we have testimony from a majority of the leading business men from each of the towns referred to, certifying that their businesses are better than when the town was wet. I do not know whether you call an increase in business prosperity or not.  
Will you tell me why you do not believe the statements of so many of the best men in these towns?  
Something else might have made

these states has proven most successful. The "wets" tell us it is a failure and the "drys" tell us it is a success, but the people in these states laugh at our ignorance and say that we who have experienced it are satisfied and are keeping it.  
The "wets" say that Vermont, after a long time, went back to a licensed state, but they don't tell us that after one year's trial under license and local option it went back almost to a prohibition state, and to-day 65 out of 75 municipalities have prohibition and all the counties except three.
